

WHAT YOU GET WITH WIND CIRCLE'S IP PHONE SYSTEMS

- **Simplicity:** Eliminate service issues and finger pointing between your PBX vendor, carrier, ISP, and Network Integrator.
- **Economics:** Reduce your monthly communications expenses with free in-network calling and unlimited usage* while eliminating the capital required to purchase new equipment.
- **Productivity:** Integrate communications and your PC Desktop while delivering advanced services to users on the road and at home.
- **Control:** Enjoy unmatched control and point-and-click configuration over all services through our award-winning OSSmosis Portal.
- **Performance:** Our team of network and security professionals monitors and manages your services 24x7.
- **Portable:** Experience the mobility of forwarding your office phone to a cellular phone and access voicemail via email message.
- **Stability:** Enjoy built-in disaster recovery/business continuity features – the off-premise nature of a hosted IP phone system means that your business keeps running regardless of what happens at your physical location. With multiple failover options, including the option to fail over to public IP, your business stays up and running under all circumstances.
- **Scalability:** Add users and services when needed and leverage the support of experienced PBX professionals.
